

THE RESEARCH QUESTION

How can the Downstream & Chemicals sector (DC) double productivity in capital projects?

THE RESEARCH PROJECT

The goal of this study is to establish a road map for research of ground-breaking, bold game-changing ideas, technologies and practices that lead to double or greater productivity. The road map should be specific to DC members and drive for “wins” for all parties – owners, contractors, subcontractors, suppliers and consultants.

THE DOWNSTREAM & CHEMICALS SECTOR COMMITTEE

Eastman has been a long-term member of CII and appreciates the collaborative work to enhance industry practices in the EPC space. As an owner company, we have reaped benefits from the CII tools, but, additionally, the personal development, networking, and collaboration with academia have enabled our resources to improve performance in this important function of our company.
